

[11:56] **Metatron through Joan:**

Greetings, Beloveds, It is I, Metatron. I am delighted to be speaking with you today.

Much was asked of you during this last year of your time, not only these last many months, but in this Conference, in this Light Conference.

We asked you to join us, the full Crucible of every member. And you responded and said, "Yes! We will come and we will gather with you. And we will receive these massive Light Templates that you are helping us to receive in the Quantum Field."

You took it seriously. And you sat in Silence to receive. You have continued to integrate in the Silence of your homes and your environment. And this is soooo important in the months coming forth.

I do not want to discuss with you the upheaval and clearing that is taking place worldwide and within all human communities. What I am here to discuss is what you bring to the table, Beloveds. You bring a massive influx of Light through your body. As Joe has said earlier in the conversation, we asked you, in 2016, to hold stably that 5th Dimensional Light Template in your physical body. And you did just that, as best you could. And as the years transpired in your time, you could hold it even more stably and more Light-filled.

Now, you are capable of holding not only the Stability but the Electro-Magnetic Field around your body and impact you personally and collectively impact the Electro-Magnetic Field of the Earth, itself, because you are part of the human community. You are part of the physical realm.

So, now you not only transmit in stability that 5th Dimensional Light Template, but you transmit it with the influence of not only the 5th, but the 6th and the 7th Dimensional Light Templates, which you have retrieved and are functioning and being downloaded throughout this coming year. They are that massive.

I want to talk about that 6th Dimensional Light Template and the importance of the Equilibrium and the changes that have taken place within your mental-emotional body. And as you transmit the fullness of this Equilibrium from your 6th Dimensional Light Template, you begin to also transmit it, in the Quantum Field, to all humans on Earth and to the Earth, itself, changing the way in which you are able to use your mental-emotional body in the highest expression of your Divinity.

[16:20] This is what you have accomplished. It's not finished! It will take this full year to fully integrate that. But you are well on your way. And we want to tell you how appreciative our Community is with the impact that you are having on all humans and on the Earth, itself.

And of course we cannot leave out that 7th Dimensional Light Template of Love and Unity, and the Element of Love, and the importance of establishing that in full Equilibrium within your mental-emotional body and the mental-emotional body of all humans on Earth at this time. The Element of Love is of prime importance, so that no human consciously moves backwards or creates unlike themselves as a Spirit, as a SoulSpirit, as a Divine Image.

So, these are very important Light Templates, Beloveds, that you are capable of transmitting to the world, to all humans.

Now, the second thing I want to talk about is the importance of that 12th Dimensional Imprint on the Elementals. That influence on the current functioning of the Elemental Community was massive, because it begins to put them in touch with their original state, their original purpose for creating Beauty, Harmony, Love, Unity in a physical way for the Planet Earth and for all humans.

So now, they can begin the work at hand to create a new world, a new human iteration, not only in the 5th Dimension, but the 5th, 6th, 7th Dimension, because of this Imprint that has been established within that Community and within the Christed Matrix. It had a big impact on that Christed Matrix.

During this meeting and also during all future meetings, as a Collective Consciousness, all humans, all parts of this Seating of the Divine Community, the Crucible – which are the Arcturians, the Pleiadians, the Sirians, the Archangelic League of many Planets, the Archangelic Realm, the Ascended Master Realm, the Lords of Light, the Elohim – all parts of our Community join together, *in the Quantum Field* now, for these various transmissions and for the reception of various Teachings that will be implemented before the close of this Seating of the Divine session and the completion of this portion of this 5-year portion of the Seating of the Divine Image -- because you have accomplished that!

[20:21] So, I want you to gather with me now.

Take a deep breath and join with me in the Quantum Field.....

Take a deep breath as you enter

and you know and are aware of the full components of this Crucible
in the Quantum Field.....

This Quantum Field is now becoming more familiar to you – the vast Colors, the unlimited creative possibilities, the Sound Currents, the beautiful Harmonic Sounds that emanate from this Field. And the Beauty and the Light.....

The Undifferentiated Light of the All That Is is all part of this massive, massive Quantum Field.

It enables you to be physically present within the Quantum Field but also physically present within your communities and within the Earth itself. So you are absolutely able to function in two worlds simultaneously, as you familiarize yourself with this Quantum Field.

It only takes your intention to move into it.....

And in the Silence of your Being, you are there – with us.....

So now, I invite Joe and Kathleen to continue with their presentations.
