

Greetings, Beloveds, It is I, Gabriel.

We Archangels are delighted to be with you this evening in your Crucible of Light, with the many Beings that have gathered not only to participate but to witness what is occurring in this Crucible with each and every one of you.

So, let us set the Energetics for what you are to receive this evening.

If you would take a deep breath...

And breathe in Light..... and exhale Love.....

Now, breathe in Love..... and exhale Light.....

Another deep breath...

Be aware of yourself in your Sacred Heart Center

fully radiating the Element of Love

the consciousness of 5th Dimension..

in a body.. radiating, transmitting the stable frequencies of 5th Dimension.....

Another deep breath...

See how your body is radiating in that beautiful Christed Light.....

Now, with your Intention, open your Triadic system...

Beginning with the 4th Triad...

spinning and spinning that Triad.....

Drawing in the 3rd Triad...

as it begins to spin in coherence with the 4th Triad.....

Drawing in the 2nd Triad...

and it begins to spin in unison with the 3rd and 4th Triads.....

Drawing in the 1st Triad...

spinning and spinning in coherence with the other Triads.....

Also see the Brilliance of the functioning of the first three chakras,

for they, too, are folded into this vast spinning Vortex of Light.....

Another deep breath...

being very conscious, alert, and present in this session
