

Greetings, Beloveds, It is the Lords of the Light.

We come in the configuration of that Quadratic configuration, emanating the Light of Source, the Light of All That Is.

We come in this configuration for specific purposes to distribute certain emanations of Light, but also creating a Field of perfectly balanced Electro-Magnetic charges that will impact every chakra, every activated DNA Strand.

When there are anomalies or fractures within your mental-emotional body, distortions within the Electro-Magnetic Field happen. And so the Unified Field that we often ask you to create within yourself and within your Energy Field is disrupted by extremes in the Electro-Magnetic Fields that are around your body and around the Earth.

So, we have worked very diligently with you to create more Unity within this Electro-Magnetic Field, making it more potent, more refined, so that it is the perfect example to hold Christ Consciousness in the world of form.

The opening of the Time Locks, especially the 5<sup>th</sup>, 6<sup>th</sup>, and 7<sup>th</sup> Dimensional Time Locks that we have been working with, are very important activations that have taken place in every Conference that we have created with you. And this next Conference is no exception.

So this Teaching is a very important Teaching as well as ALL of the Teachings that you have received this year. We have given you many important Teachings this year. And we have pushed you into states of Consciousness that you never considered prior to these activations.

We asked you to review the information that has been given in the last three or four years of your time on the Light Packets, to restore some of the memories of the vastness of these huge configurations of Light.

You had no knowledge of these Light Packets until 2016, the very first Conference of Seating of the Divine. And in that Conference, you were just made aware that they exist.

It takes a certain state of Consciousness to have these Packets activated. So, each year, we have brought you to states where that activation could take place. And every year, adding more to that.

[4:49] These huge Light Packets are configurations of Undifferentiated Light of Source, of that Creative Energy of Source. The Light is then differentiated by the Dimensional Light Template Energies that you have been retrieving.

So you see, the Light Packets could not be fully functioning until these Light Templates were retrieved from the Time Locks, where they were put at the fall of consciousness, to preserve the integrity of those Light Packets and also the integrity and the massiveness of that Undifferentiated light of Source.

The activation of the seven Light Packets could only occur when a segment of humanity was consciously ready to move into that 5<sup>th</sup> Dimension. Of course, you have been prepared. But there are many more that are awakening -- because of what you have done as a forerunner, have held that in your body -- those Energetics have activated those Packets within your Energy system. So, more and more of humanity is awakening to that 5<sup>th</sup> Dimensional state of Consciousness. And many more are pushing forth to acquire a consciousness of that totality of 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup> Dimension. Here again, because YOU, as leaders, as way-showers, as forerunners, held that in your body and held that integrity of those Light Templates, the Light Packets could be opened and further flower your Consciousness.

These Light Packets, as well as the Light Templates, required assistance. You required assistance for these activations to take place. And we were happy -- as Ascended Masters, Archangels, Star Beings, Lords of Light -- we were happy to be of assistance and bring you into states of Consciousness as well as vast Cosmic Wisdom that you are now beginning to awaken to, because of the merging of your Soul with your Spirit. So there is now a viable communication between the Wisdom that is held within your Soul of many life experiences in form, but also the purity and the vast perfected Templates of the Spirit that is always united with the All That Is.

So, we would like to begin this Teaching in telling you some things about the changes that have occurred and how they affect -- each time a Light Packet is activated, it brings about a great shift within the body consciousness.

The first three Strands of DNA especially relate to your physicality and your physical lineage. When you get into that 4th DNA Strand, you began to move into the level of Soul Consciousness, SoulSpirit Consciousness.

So, as these activations have occurred, now you have more than one or two of those massive Light Packets activated and how they affected certain DNA Strands, how they affected the chakra system, and how they affected the physical body.

[9:50] Now as we activate more Light Packets, we bring you into that Realm of Spirit, where you are creating a VAST cohesive communication channel not only between your Soul and Spirit, but between your Spirit -- that is always united with the All That Is -- but with your SoulSpirit as it activates certain Energetic channels within your Light Body that not only help you to maintain the integrity of the Light Body, but help that Light Body become the bridge and the channel of the physical body's activation into Light.

So, as you become more conscious in your Light Body, that Light Body becomes part of that etheric body's system and begins to be the bridge to move the physical body into a different Dimensional state, not just of Consciousness but of physicality.

So now, you're just working at that 5<sup>th</sup> Dimensional level, bringing up the 3<sup>rd</sup> dimensional body into that 5<sup>th</sup> Dimension. But it won't be too long where the 6<sup>th</sup> and 7<sup>th</sup> Dimensions begin through the Light Body to have an effect on the physical body's integrity and the way in which it is positioned, not just in the Dimensions but in the body, itself, in the physical expression, itself. This is what is so exciting about these activations of these Light Packets.

So, there was a change in the last activation that was presented was a change in the 3<sup>rd</sup> Strand of DNA, because it was necessary for this to occur, so that that Light Body could function more coherently within the physicality and bring that physicality, raise that physicality up to that 5<sup>th</sup> Dimensional level.

The last activation that we did with you involved placing the 3<sup>rd</sup> Packet of Light in the 3<sup>rd</sup> Strand of DNA. This was a game changer for not only you, but it was a game changer for all of humanity. Without the 3<sup>rd</sup> Light Packet in the 3<sup>rd</sup> strand of DNA, the mental-emotional body was greatly affected and compromised by the physical lineages that are combined in the 3<sup>rd</sup> DNA Strand. As you remember, in those Double Helixes, the first Helix had the 1<sup>st</sup> and 2<sup>nd</sup> Strand related to your lineage, from your mother and your physical father. The 3<sup>rd</sup> DNA strand represents you as a combination of all that.

When you get into the 4<sup>th</sup> Strand of DNA and 5<sup>th</sup> Strand, you begin to be able to access the lineage of your Soul and your Spirit. The more Strands that we can help you activate and the more Packets that are placed in those DNA Strands, the more evolved you become, not only consciously, but the body itself changes and evolves.

In that 3<sup>rd</sup> DNA Strand, that Strand holds reaction patterns from the various lineages that need to be cleared. The 3<sup>rd</sup> Light Packet continually transmits the 5<sup>th</sup>, 6<sup>th</sup>, and 7<sup>th</sup> Dimensional Light Template consciousness into the physical body. And that occurs because the first four Light Packets that we helped you activate were placed specifically in certain Strands of DNA and, most importantly, within that Sacred Heart Center.

[15:08] So, now that we have helped you activate an aspect of the 3<sup>rd</sup> Light Packet into that 3<sup>rd</sup> DNA Strand, everything is shifting.

This activation assists in the transformation of the fallen ego so that it willingly follows the SoulSpirit Consciousness. And this then activates the Electro-Magnetic field of the body and provides a more coherent state within the mental-emotional body from the access point of the Wisdom of the Soul.

These major changes brought about through various Light Packet activations affect the function of the entire Double Helix structure. As you remember, there are six Double Helixes. And there are two Strands of DNA in each Helix.

Each activation and placement of the Light Packets in the various DNA strands and the various chakras uplifts the entire system with each activation. So, this is important for you to recognize. With each activation, ALL of the Light Packets and the activations are affected.

So, we begin now not to start from the 1<sup>st</sup> Light Packet, but we start from the most recent Light Packet that was activated. And there is a trickling down into each Light Packet that was activated, each Strand of DNA that was activated, each chakra that was activated or imprinted in some way. So, changes in that 3<sup>rd</sup> DNA Strand provided an imprint in that Strand that could not be possible if you hadn't activated the 4<sup>th</sup> Light Packet, the 3<sup>rd</sup> Light Packet, the 2<sup>nd</sup> Light Packet, and the 1<sup>st</sup> Light Packet.

So, the functions and the activations that took place in each of those Light Packets affects the Whole continually. So when we activate the next Light Packet, then that Light Packet not only functions in its original function, but it imprints every other DNA Strand that has been affected by a Light Packet activation, every chakra that has been affected by a Light Packet activation. So, it is an ever-evolving, cohesive system that builds on the current activation and imprints the rest of the activations.

Now, when I say imprints, that is what it is: it is an imprint. And it is up to the individual how that imprint gets fully activated, the Consciousness that they are able to hold.

And the body then begins to slowly respond instead of react. A sense of a need for balance and equilibrium in the mental-emotional body begins to stir. Even in the full consciousness of the body, when the full consciousness of the body is not fully aware of what the mental-emotional body is, this imprint of all the valuable attributes of say the 3<sup>rd</sup> Light Packet activation moves the body consciousness and the lineage consciousness ahead many, many years in its evolvment, in its Ascension process.

[19:59] The genetic lineage of the body is greatly affected from the past to the present to the future. So, Beings who take on certain lineages don't have to go back to square one. Not only do they benefit from the Wisdom of their individual Soul, but they benefit from these activated Light Packets that have imprinted their chakra system, that have imprinted their DNA structure in some way. And it makes it easier for them to come into more refined states of Consciousness and more energetically harmonious states of Being.

We cannot express to you the importance of this process, because it escalates the Ascension process tremendously. It pushes it forward by leaps and bounds. These imprints stir the Consciousness to explore and question how the individual creates their life experience. And it's in that curiosity and that inquisitiveness that much is gained. And that's all because YOU have activated these Light Packets within yourself, within your body. And you have benefitted from it. And because you are a member of the collective of humanity, you bring that forth and make it available to every human who resides in a body on Planet Earth.

The imprints stir the Consciousness in ways that you could not have understood previously. But since these activations have been taking place in YOU, that curiosity, that push to understand, to know, to have more of a refined energetic system at your access.... By changing your energetic system and the availability, the constant availability, of your SoulSpirit Consciousness, the life of all humans is changed.

Another thing that is important for you to know now, as we upgrade this to the present moment, to the Consciousness that you now hold and have developed in the last five years of your time -- We would like to talk to you, now, about the coherence that is being developed gradually within these six Double Helixes. We have told you that the 4<sup>th</sup> and 5<sup>th</sup> Strands work together; the 6<sup>th</sup> and 7<sup>th</sup> Strands work together. Each Helix is joined energetically to the previous Helix through the interface of a DNA strand that resides in a different Helix.

Can you see how an energetic coherence within the complete structure is precisely created? And you are co-creating that with us at this very moment.

Because of the two Light Body Initiations, it's important now to create a more expanded Unified Field.

The spinning of the six Double Helixes, just as the Triadic system does, those Helixes spin, just as the 1<sup>st</sup> Triad, the 2<sup>nd</sup> Triad, and so on. And they fold into one another and create a Unified Field of Light Energy that relates to form.

[25:05] This is the energetic manifestation of a full Christ Consciousness in form.

Now, this is an important fact, what I just said, what we just said to you:

**The coherence that is now available in those Double Helixes that assist in the manifestation of Christ Consciousness in form is now taking place.**

As we move along, more Light Packets will be activated and more DNA strands will come on line.

The spinning of the Double Helixes have a direct impact on the advanced functioning of the Triadic system that will support the Light Body Consciousness. It will change the body consciousness and bring it up through the 5<sup>th</sup>, 6<sup>th</sup>, 7<sup>th</sup>, and 8<sup>th</sup> Dimensional physical forms. There is no limit to this Ascension process.

So, just as the Triads spin and they work together and they fold into one another, creating a Unified Field, these Double Helixes now have begun that unified spin, where each Helix, starting with the most recently activated Double Helix begin to fold into one another. And then that Double Helix affects the Triadic system, because of the structure that is being used within those Helixes, not only consciously but within form.

So, eventually, these Double Helixes fold into the Triadic system and become one massive Unified Field of Consciousness and Light Energy.

This is a HUGE upgrade in your Ascension process!

If you can remember not too far back in our Teachings, we talked to you about how this process and the gifts that you give to humanity, the service project not only of Grid Masters but of Seating of the Divine, will escalate your personal state of Ascension to levels that you hadn't expected -- to the point where when you drop this body and move into the Ascension Spiral, you are able to use 7<sup>th</sup> Ray of Creation. And you very quickly move into an Ascended State of Being, without entering that karmic wheel.

So, because of your service, it was important for us to have this discussion with you this evening about the upgrades in the Light Packets, how they affect the Double Helix, how now – because you have two levels of the Initiation into Light Body and you have had the reception of the Light Garment, a massive Energetic Garment that protects the integrity of the Light Body – it's important that you have access to this full Energetic, vast, coherent Field, Unified Field.

This in itself alters the Electro-Magnetics that are within and around your physical body. But it also benefits the Electro-Magnetic field, stabilizes it, around the Earth and enables the Elemental Community to remember their 12<sup>th</sup> Dimensional roots.

[30:21] So, it sets the stage for your upcoming Light Conference and the activations that will be taken in that Light Conference.

So, when we ask you to draw from the Light within your Merkaba Vehicle to feed and nourish your Light Body, we are providing this information this evening about these Double Helixes and the spinning of that and the merging into the Unified Field of the Triadic system, where many alterations take place. And not only alterations, but it becomes this massive Unified Field of Light that is within and around you, within your physical form. It's within your physical form. It's within your Energetic system.

So, you are being fed not only by your Merkaba Vehicle of Light, but you are being fed by this massive, activated, and fully integrated Unified Field of Light that is around and within you. It provides the perfect environment for Christ Consciousness to exist within form -- with equilibrium and with Unity and with full integrity of Spirit.

You never again will question who I AM, because you know who you are.  
You are a Being of Great Light, unified in body, mind, and Spirit.

So, just like every session that we have brought to you in this past year, this also sets the Energetics for a fuller activation that is yet to come, because you are prepared.  
Your Energetics, your Energetic Field is being prepared.

The Electro-Magnetic Field has great equilibrium. There are no spikes in that field any longer. This was very important, because when you have spikes in the field, more electrical charges or more magnetic charges, you don't have that unification functioning with equilibrium. And this is so important in using the 6<sup>th</sup> and 7<sup>th</sup> Dimensional Light Templates effectively.

We have given you a tremendous amount of information, Beloveds, but with that information and concepts, we have given you a huge Energetic infusion of Light that will take you a couple of weeks, at least, to fully integrate. But you will have that integrated within you at the start of this Light Conference.

In closing this evening, we would like to lead you in a closing process, where you begin to feel in your body, in your Heart, in your Sacred Heart Consciousness, the fullness of the Light that you carry.
