

Greetings, Beloveds, It is I, Gabriel.

I come as an Archangel of Light, of the Light of Source.

And I don't often speak of this, but it is very important this evening that as we gather, we gather fully and completely in the Radiance of that Light.

As you gather this evening, please make note how brilliant that glowing Light is within each and every one of you. You have received a beautiful Garment of Light with the Sacred Name of Source on it. And you wear it well! How beautiful you are.....

Also notice that there is a brilliant glow coming from the center channel of your body. Those Golden Letters of the Sacred Name, the personal Name of Prime Creator, are very specifically placed within that center channel. And you are radiating and glowing in that Light.

Perhaps you have not noticed how easy it is to direct your attention and feel yourself in your Light Body, since last we met.....

Take a deep breath, and feel that now –

for you ARE the Light of the Source of your Being.

FEEL that Light Body in its beautiful expression of your Divine Essence as a Christed Being.....

Now, activate your Merkaba Vehicle.....

And, with Intention and purpose, begin individually to file, one by one, in this Radiance that you ARE, one by one, file into the Crucible, into our Community of Light, and take your seat with all members of this Crucible..... [Pause]

As you sit with us, notice – there's a shift in this familiar Energy, and each one of us are nodding to you, and recognizing the change in your Energetic Field. You wear your Garment of Light quite beautiful.....

As we have gathered this evening, with Intention and purpose, to receive the second part of these Teachings coming from the Realms of the Source of All That Is.....

Take a deep breath..

Be very conscious and very present in this moment.....

And let us begin.
