

Greetings, Beloveds,

It is the Collective Consciousness of We Lords of Light:
of Michael, Metatron, and Melchizedek.

We have come to be with you in these Teachings to disseminate high frequencies of Light, of Holograms, that will be utilized throughout the coming year of your time.

There is a direct correlation between our Energy and the Purity and Sanctity of the Source that is now within you, around you. And you recognize it. You are amazed by it, in some respects, because for so long you didn't know that. Nor could you be aware of it. But you have grown under our Guidance for many years of your time now.

These Teachings, these three successive Teachings, will alter your Ascension path in ways you could not have imagined. It is changed dramatically since you decided to wake up and began to remove some of the anomalies that plagued you and kept you in the density -- these Codes that we have been giving you, the Sacred Names, the Light Codes. And Yeshua has been showing you the way through the path of Forgiveness, which are key in this transformational process. It escalates the entire process ten-fold! Hard for you to imagine... But when you received those Codes, those Markings, into your very Being, into your Soul, the direct path was opened in ways that you couldn't see before.

So, this evening, before we turn it over to Yeshua to do the Teaching on a higher frequency Energetic of Forgiveness and the meaning of that, we would like to discuss with you some important touchstones that you have learned previously. We talked about your Spiritual Body, what it was composed of. We have talked to you about your OverSelf, your OverSoul, and your Christed OverSoul. We have energetically helped you position your OverSoul into your body, where it was drawn in through your Crown. And that OverSoul Consciousness stayed in your Crown, in your beautiful Crown of Light, open and receptive.

But it also descended into your Sacred Heart and further impacted your Heart Chakra, where you began to have respect for yourself. You couldn't quite get to Love, but that was forthcoming shortly. And it did come. You may still have difficulty saying, "I Love myself", but you do honor what Source created in you. And in that honor and gratitude, the reflection of you in that Divine Similitude of Source began to take hold in your heart and in your mind. And that beautiful Magenta Flame in your Sacred Heart, that was merged with the Flame in your Pineal, altered your ability to process the complexity of Spiritual concepts.

[6:06] So, the other thing that has a direct correlation to these Teachings now, which you will understand more fully as we progress, is that Christed OverSoul. You can see your markings. You can see that YOD HEH VAV HEH in your center channel of your body. And you begin to use those Energetics efficiently and effectively. And your body's dimensional frequency is altered.

It is with this configuration of we three Lords of Light, and that Consciousness that needs to be more fully understood by you. Not only are we Lords of Light. Some of you interact with us at the Angelic Realm. But we are a Power, a Power of Source Energy. And we emanate from the Source itself, from the Seat of Grace. And we distribute, as you evolve through the dimensional times and frequencies, certain Light Energies that affect your electromagnetic field of your body and affect the Earth's electromagnetic field as you walk day to day on this beautiful Planet Earth. And She, too, is resonating to you the glory of her Christed nature.

We help you in our full expression understand a little more about the function of your Christed OverSoul, that is now coming more into complete alignment through the Fire Letters and through the markings of the Sacred Name of Source and the Energetics that go with that. It is no accident that in the center column of your body that certain Letters were positioned in certain areas of the body, primarily the Yod – in the area of your brain, or your Pineal Center, of the 3rd Eye. Can you imagine the effect of the Energetics and the stirrings of the usability of that Center more effectively, efficiently, and in full alignment with your true nature as a Christed Being!

So, it's within these Teachings and the Energetics that we bring to you in these Teachings that that Christed OverSoul also begins to take up residence within the body. And the Mind of that Christed OverSoul begins not only to transmit to your OverSoul Mind, to your Higher Self and to your mind, your Higher Mind as it is merged with that Christed Mind, as it has begun to merge with Universal Mind.

Lots of Energetic amplifications are taking place through our Presence and understanding of the Holy Spirit as only a part of the massive Consciousness of Prime Creator. It is totally merged with all other iterations of a full expression of Prime Creator. Yes, it emanates a very distinct feminine, what you would call feminine, which in these vaster Realms there is no such separation. It functions in wholeness.

So the One that you call Father God, the Father, the Prime Creator, the masculine, the One that moves and creates Energy, is always unified with the completeness and wholeness of that Essence of the Consciousness of Source.

[11:58] So, as this Christed Mind becomes more active within you, within your Higher Mind, and a unification begins to take place in all or your bodies, especially in three of the bodies: your OverSelf, which is the higher expression of you, the more refined expression of you as a Christed Being, that OverSoul. The OverSoul Mind and the Christed OverSoul begin to function as a unit, very distinctly, within you, within your Consciousness. And great changes occur quickly.

So, we wanted to discuss this with you and tell you this is why we have been stressing how important these three Teachings are for you. It will take this entire year for you to integrate some of these concepts. But the more that you allow and sit in the Presence of this massive holograph through the Sacred Name – Sit, FEEL the difference in your body, FEEL the difference in your Consciousness, understand the transformation that is occurring within you.

So, take time for you, individually. Because of the quarantine that is now in play, take advantage of that time where you aren't required to go off in the wilderness, to a cave or a tent out in the world. But you have the comfort of your own environments that you are changing and altering the Energetics in that environment, in the comfort of your room, with your Sacred articles, the space that you meditate in. Take advantage of that comfort and that space, because, as you utilize it to help you integrate and be aware of yourself as a beautiful Being of Christed Energy, you begin to change your environment, not only make it more comfortable, but the frequencies of Light that are within it alter, because of your Presence.

Try to be conscious, as you walk the Earth, as you take a walk, and your feet on the ground or on the pavement or on the trail, how you resonate the Light, the Unity, the Peace and the Harmony. So those who walk after you can walk in a different environment of Light.

We have often said to you, many teachers have said to you, "Pay attention." It is with you intention and your attention that you make vast changes. You can affect your community tremendously by intentionally transmitting that 5th Dimensional Light Template in stability, in the highest frequency that you are capable of transmitting.

We thank you for receiving us this evening.

And we are with you for the remainder of this year – very specifically:

Our Energetics do not leave you at this very crucial, important transformational time.

So we will step back and welcome Master Yeshua.
