

Transcriber's Note: As usual, questions may be summarized. Yeshua's answers are word for word.

Q1 [23:50] John reading the first question which was emailed in:

Is the "W" in the written Name YHWH the same or different as YHVH?

Greetings, Beloveds, It is I, Yeshua.

In response to your question, the answer is, it is the same. So, let me further explain.

Languaging is a very interesting format of communication. And this, the Sacred Names of the All That Is, the Yod Heh Vav Heh, was brought forth in ancient times to the Hebrew prophets and teachers and priests: Moses, Elijah, Isaiah, Abraham. And, at that time, there was very little writing. But it was communicated through either stories or communication through the voice. And so, as it was first presented in those time frames, as the time sequence evolved, it became necessary to have written documentation.

At that time, the Yod Heh Vav Heh was spoken. And that meant something to the individuals. It was a way of communicating, like you in this time sequence would communicate with your friend and call them by name. And so, it was the same way to get to know the Presence of God through using God's Name.

So, as time went by and more of this was documented in translations, some of it became distorted, so that instead of the translation, it was a transliteration according to the language in which it was being transcribed. So, that's how the confusion started from the Yod Heh Vav Heh to the Yod Heh Woh Heh, when it was translated from the ancient Hebrew to the Greek or the Egyptian... or the Latin -- In the western churches, where Christianity began to grow, it changed.

And then it was decided that it was such a Sacred Name that no one could speak it. So, the Hebrew, the Jews, started to use Adonai, meaning Lord. But it wasn't the personal Name..... that's different. And the actual spoken Name has been lost....

So, when you say, when you call on the Name of Yod Heh Vav Heh, it's not like it is a spoken name, like John or Mary. But it's a sequence of Sound Templates, where you get to feel the Energies of that Sacred Name, the personal Name. And that is sooooo different. And for years, people didn't say it. They didn't allow themselves to feel the Presence of the Divine, because of the separation, the state of separation. And that only magnified the separation.

[28:55] **Yeshua, Q1 cont'd:** Now it's time to have a vaster understanding of not just the All That Is, the Source of your Being, the Lord, the Ehyah Ascher Ehyah--I AM THAT I AM, but the Name itself.

And when you work with the Tetragrammaton [Transcriber: YHVH], there are many variations in that Name. So these variations not only help you begin to realize the magnitude of that God Energy and the different ways in which it is expressed, it invokes in YOU a feeling. And you can see, when you are saying Yod Heh Vav Heh or Heh Yod Vav Heh, that there is an energetic shift in that, because there is a personal shift in the way that God is communicating to YOU.

But you will always go back to that Yod Heh Vav Heh, because that, Dear Ones, is the fullness of the Source of your Being and your relationship with that Source at a more personal level. It changes everything. And you are just now embarking on that Journey into the fullness and the unification with the One or the Consciousness that created you in such great Love.

Q2 [31:21] John reading the second question which was emailed in:

In the Triad which has been speaking to us in the last three classes, both Metatron and Melchizedek spoke but Michael did not. Was there any particular reason?

Yeshua: Let us go back to the concept that the Power of the Source of your Being is within you, but it is in various configurations, Triadic expressions of Great Beings of Light that sit at the Throne of Grace or the All That Is. The Lords of Light in this particular iteration of Metatron, Michael, and Melchizedek is a Collective Consciousness.

Now, for your benefit, often they come in an individualized expression. However, in that individual expression, there is still, they are part of the whole of the full expression of that Power of that Triadic Configuration of Source. So, it is for your convenience and in your culture. It makes it more personal.

And yes, each one of those positions within that Collective Consciousness has a purpose. So, we see Metatron is a great Lord of Light, whose job it is to bring matter into its original Christed state of energetic expression. And you see Michael as a protector, a protector of the true expression and intention of the Light Energy from Source. And we see Melchizedek as the holder of Light and the distribution of that pure Undifferentiated Light.

So, when they speak to you in that format, they generally are speaking in those specific Teachings. But at the whole of it all, ALL are always present. And the fullness of that Energy is not just devoted to the Undifferentiated Light or the true expression of the intention of Source as it was created or the bringing forth the unification and the evolvment of Humans and other sentient Beings.

Q3 [35:07] John reading the third two-fold question which was emailed in:

(a) Now that we have a Light Garment, does that mean that our Light Bodies are fully illuminated? Can you expand upon the other two iterations of the Light Garment?

(b) Will we be having classes on the Heh and the Vav?

Yeshua:

(b) Let's take the last one first, the Heh and the Vav. Yes, you will have Teachings in regards to the fuller meaning of those Letters and what they are expressing.

(a) The first question, is your Light Body fully illuminated? No, it is not.

And I don't want you to be discouraged by that answer, because a level of your Light Body has been illuminated tremendously. It is radiantly expressing a fuller YOU at that individual level. But there are other levels according to your state of consciousness and according to your Soul's Journey in this life, in this particular expression of you. So you may go on and receive more iterations of a Light Garment, a different aspect of the Light Garment that you are being taught about and made aware of.

There are most often in individuals three variations of Light Garment, and each building on the other. And the same for Light Body. So, as you raise your consciousness and as you are able to navigate more interdimensionally within Dimensions but take on higher Dimensional sequences of Light, then these alterations are made in your Light Body and in your Light Garments.

Now, let me be clear here. These Light Garments are not a physical garment. They are an energetic composition of a vast Light Energetic that comes from the Realm of Source. And we've said this often: this comes from Source.

Well, once you've received and understand that Sacred Name, you can... it makes a difference in your comprehension of that Source Energy and the massiveness of it and how that feels in your body. So you get a better grasp on that Energetic Light Body and the Energetic Light Garments that are marked with that Name.

You belong to Yod Heh Vav Heh and you are marked with those Letters – for Eternity.

Q4 [39:04] John reading the fourth question which was email in:

Could you expand on the 7th Ray of Creation?

Yeshua: Well, I would like somebody in the community to ask that in a way... I mean, that's a vast Ray of Creation. All those Rays of Creation are not little, small increments like the 10 Commandments (and not that those are small – they're not). But these are massive Energetic Configurations of Source Energy.

So, in the context, there has to be a definition of what it is you don't understand and what it is you would like expanded upon. So, if somebody else has that same questioning, I'm happy to answer according to your questioning. However, for this particular individual, if that person will ask me at another time in one of these open communication calls where you can feel free to ask what's confusing to you, whether it is of me or one of the other great Teachers of Light.

So, we will leave... I can't really answer that and give you all of the context of what that 7th Ray is.

But basically, it's a Ray where you are able to have cleared all distortions that were taken on in a certain Soul iteration in a specific lifetime, either consciously or unconsciously. Somehow you used the Yod Spectrum and the Yod Spectrum of Forgiveness to alleviate yourself from any distortions or any cording that might have occurred in your physicality through these distortions that were created in that lifetime. So that can be done through the 4th, 5th, and 6th Ray; it can be done through the 8th Ray.

But, in order to enter that 7th Ray of Creation, you must have been relieved of all those physical distortions that were created in that particular Soul evolvment. And then you are swept up in that Ray, in a vast Golden Light of Source, and brought back to your original state, before you entered this particular life.

Now, this is not for new Souls or novices. This is for Souls who are evolved, who are Avatars, who are Teachers, who are Masters. Only these types of individual Souls are permitted access to that 7th Ray.

So, we will leave it at that, unless there's more questions that come from the community. So, I invite you to ask your particular question, so we can have a discussion about that. Or, you know, piggy back on this one.

It is in your questioning, Dear Ones. You have to understand that. It is in your questioning that we can expand on certain topics, so that there is no confusion, so that you can receive what is intended wholly and completely.

Q5 [43:46] Randy: I have a question about the Zama Zama Ozza Rachama Ozai. It sounded like you used this as a protection or shield when dealing with darker forces? Could you elaborate on that phrase and its uses. Does that make sense?

Yeshua: Yes, it does.

So, there are many benefits to this particular Light Code. It is a Light Code; it is a Sound Code; and it has aspects of Color to it, mainly the more refined Light Codes such as the Magenta or the White or the Gold that represents Christ Consciousness.

And because I came into a human body, yes I had certain awarenesses and states of consciousness that early on you did not have. But you are gaining in that awareness, in that state of consciousness. So, just as you are tempted to miscreate or to be bothered by negative influences, I was bombarded, because I had a big mission – I had a seeding of a race of individuals. I had to seed the planet to bring it back into its original state. So, I was bombarded – continually – by these forces in that lifetime.

So, the Zama Zama Light Code as well as some others were very valuable to me, especially before I went into my public teaching life. Once I went into that life, through my use of various Sound Codes and through my asking for protection, asking for more Light Energy to not only protect me but to ward off these negative entities.

When I was crucified, and in that three days -- I spoke of this in that session, that last session -- about I descended into the underworld, where I had to confront a realm of hierarchy, beings, great powerful beings who rule the 3rd dimension and cause such havoc, such separation, such fear, and many other things.

So these archons had to be confronted, so they would have less of an effect on Humans, so that the Human consciousness could rise up without interference -- when they were praying, when they were meditating, when they were in the Temple, when they were raising themselves up, when they were petitioning for forgiveness on so many levels.

So, they had to be confronted so that they would begin to know that there was a Presence of the Divine that was much stronger: the Light that was brought into that darkness shone in the darkness. And there was no doubt that that hold that they had on Humans and on the world, the Earth itself, would become altered, would alter.

So that was my purpose in that descension: to alter that impact through the Light that I carried. And I had to develop that Light throughout my public life. And, as the culmination of my Journey came to pass, that all had to be put in place in my earlier years.

[49:49] **Yeshua:** So, that's what I meant when I said I used it. It wasn't really a shield. It was an emanation of Light that couldn't be distorted and that had an ability to change the physical expression of the lower distorted archonic hierarchy, if that makes any sense.

A lot of individuals living and walking on your Earth do not want to look at that. And I'm not saying that you have to. But you have to be aware that this particular fallen hierarchy has many gods, sub-gods, that are very powerful and use..... They interfere with your mental capacity; they interfere with your emotions. Your own mental-emotional body is your most powerful body as a creator.

And so they have a lot of power to interfere with that, because they rule the 3rd dimension, which you have moved out of. But even though you've moved out of it, you are just at that beginning stage of 5th Dimension, which still has interference – but not to the level that it does in 3rd dimension.

So, I hope that answered your question. Or if you have anything else to ask about that.

Randy, Q5 cont'd: Wow! Yeah, that's fascinating.

So the archons, the lion-headed gods, they are still trying to keep their grip on this planet and at this time of purification, if you will.

Yeshua: absolutely!

Randy, Q5 cont'd: And we can use these Codes or these phrases when we feel triggered or put upon – that would be a good thing to keep in mind to use.

Yeshua: Yes, to use. They were given to you to use, because these powerful beings are gods, fallen gods. And they are very powerful. So, to use the Zama Zama Ozza Rachama Ozai is a very important thing. And that's why I said to you, "Use it every day!" Don't wait! Use it. Put it in place. Or the Ehyah Ascher Ehyah: I AM THAT I AM. I AM the Source of God's Love, of God's creation. So, those two things:

See that imprint, that marking within your center column of your energetics system. See it on your Light Garment.

This in itself will allow you not to be forcefully bothered. It will keep them at bay.

I mean, they're still going to come back, because they're fighting for their life, their existence, because eventually 3rd dimension, as you know, it's already been closed. The gates are closed. So, it will cease to exist on Planet Earth. So they are using every power that they possess to continue.

Q6 [54:05] Randy: And then, can you speak of Forgiveness? The Yod Spectrum of Forgiveness. Because there's a lot of division right now, and a lot of finger pointing at the negative and the cabal and all of this. I feel like we have to forgive all of them, even the archons. Is that correct? That's the only way for Unity. What is your perspective on that?

Yeshua: That is absolutely correct.

But – it does NOT say you condone those creations, because are they against the laws of God. Absolutely! So, you do not say that was OK. It's never OK. What you have to forgive is the distortion that was created and disengage from the energetic of that that holds you to that.

So, it's not really forgiveness. It's an extrication. You extricate yourself from the tie of that energetic distortion that impacts your Soul as well as your mental-emotional body.

It doesn't impact your Spirit, because that's never in a fallen state. It is in the Image and Similitude of the Source of your Being. But the Soul is a different story. It's a vehicle of navigation and experience. So it can be marked in ways that will be carried forth in other lifetimes or other life experiences.

Randy, Q6 cont'd: So, instead of forgiveness, are you speaking of detachment?

Yeshua: Detachment – that's it. Don't attach yourself to it.

See the distortion for what it is. See the creation that was against the laws of Source and against the laws of Man. It was very harmful. So, it's extricating from that hold that it has on you. Having compassion. If it happens to be an individual that has wronged you and hurt you, a Human, another Human, then that forgiveness extends through compassion and a state of consciousness that possibly that individual was damaged in some way along the way, either through genetics of the physical body or through programming of experiences. If that individual were in their.... in a state of consciousness that was more Light filled, they never would have acted on an impulse of distortion.

So, it's in seeing that that individual, that Human, was created in the Image and the Light of Source, just as you were. But, along the way, they were damaged. And they committed acts against Humanity, acts against you personally. And so, you have to disengage from that through Love and compassion.

It doesn't mean you have to be their best friend, you have to be in a relationship with them. Disengage and move away.

Q7 [58:40] Sharka:

(a) When using the Yod Spectrum of Forgiveness, I get flashes from this lifetime from when I was not so great. And I remember your voice telling me, “You are forgiven!” And that has been so helpful for me to have compassion for myself and forgive myself.

Yeshua: Yes, that’s very important! Yes!

Sharka, Q7 cont’d:

(b) Could you tell me if all the physical challenges I have been getting in the last few months is a reaction to the Light which I have been transmitting of the dark energy?

Yeshua: No, you are not. No, no, absolutely not. The fact that you’ve received... you’ve heard that you are forgiven – that was your Higher Self. You are always forgiven for mis-steps, miscreation, especially when you realize that you have miscreated and you make a change. Then, it no longer exists, because... It no longer exists as long as YOU forgive yourself. YOU have to forgive yourself. And that is equally as important as forgiving another. It’s letting go of that distortion and the energetic from your energetic field, releasing yourself.

Sharka, Q7 cont’d: What about those physical challenges I’ve experienced these last few months which did look like dark energy.

Yeshua: Yes, these are the things that I’ve spoken to you about – the known and the unknown. And it’s not important that you bring it into your consciousness. But there are distortions that were created along the way that you’ve long forgotten. You don’t need to remember. But they are already gone and then forgiven.

So sometimes that memory code in your body surfaces and it is perceived as a challenge. And it’s not. If you just say, “Oh, I see that!” And let it go.... Let your Light shine from that beautiful Sacred Heart of yours. And know that you are OK. But sometimes in the course of all of these changes that are occurring & all of the Light just pouring in to you, to every Human on the Planet, into the Planet itself, those unknown distortions begin to make their way to the surface through the cells of your body.

So, here again, it’s very important: don’t grab on to that. Let it go. You don’t need to know all of the ins and outs of that. Just release yourself from it. Call on the Light. Call on the... Call the Zama Zama. Say Ehyah Ascher Ehyah – and mean it. I AM the Light. I AM. I AM THAT. And it all smooths out.

So, yes, over the next several months, this year will be challenging for many.

Sharka, Q7 cont’d: I’m doing the best way I can & just continue transmitting my Light.

Yeshua: Absolutely. There you go!

Q8 [64:46] Mark: May I ask one point of clarification relative to Forgiveness. Is it important for us to go and to recognize enough of what we are forgiven individually or can we just do a blanket Forgiveness.

Yeshua: You can't just do a blanket Forgiveness of all distortions and make it go away, so that you don't have to think about it, you don't have to feel it, because sometimes in feeling it, you get an awareness of what that distortion is and how it can replicate in different iterations. Or you get a feeling for what the effect is. Everything in the Human life has cause and effect -- what caused it and the effect it had on another.

So, a blanket Forgiveness is not always in your highest interest, because in that recognizing and seeing the energetic, feeling the energetic, you won't often repeat it then. It is forgiven; you've disengaged from it; and the energy of it is gone. And you are restored.

Mark, Q8 cont'd: So, the question I have is – as these individual manifestations of the darkness show up in my life, do I need to recognize them and say, “OK, I recognize you and I forgive you”?

Yeshua: Yes, “I see it for what it was and I realize that I am forgiven and that I will not repeat those actions”. And then it is done. They will not resurface, because you've recognized it, you've changed it. It's been already altered. It is no longer operating in the present moment. It's a memory.

Mark, Q8 cont'd: OK, thank you. I think I understand.

Yeshua: If you don't, let's discuss more.

Mark, Q8 cont'd: There are certain dark energies that are showing up in the larger population.

Yeshua: Oh, of course! There are those that are vulnerable.

Mark, Q8 cont'd: Yes, but not specifically affecting me on a day to day basis. Do I need to recognize those and then forgive them? Or is it only when it affects me?

Yeshua: That's a really tricky... It's when it affects you.

However, you can see it and it's not so much about the Yod Spectrum of Forgiveness there. It's about seeing it for what it is, realizing it's there, and then doing an exercise of some sort to use your Light or use Light in some way, whether it be in a Prayer form, a Sound Code, a Light Code, to direct it into what you are aware of, to soften that effect that it's having on....

and you're speaking more of a Collective rather than an individual are you not?

[68:53] Mark, Q8 cont'd: That's correct. I'm wondering, I guess, to use the analogy of a rifle approach as opposed to a shot gun approach.

Yeshua: Correct.

You are a very powerful Being of Light, Mark. So you have the capacity to alter that effect that it is having on certain groups of Humans, by directing specifically certain iterations of Light into that archon community, because you are marked with the Divine. You have at your disposal a Shield through the Zama Zama iteration. So, always use that.

And know that you can affect that effect on those particular hierarchy communities that are invading certain groups' most vulnerable points, which are usually survival through fear. And you recognize that. These are the vulnerable places in the Human consciousness.

Mark, Q8 cont'd: I finally got it. I appreciate your words. Thank you very much.

Yeshua: You are very welcome.

Q9 [70:38] Jana: Could you speak more about our physical bodies and Ascension symptoms? Can those sources create a distortion in our physical bodies?

Yeshua: Not in your physical body, but in Humans that operate in 4th dimension and lower 5th Dimension. That's why we have consistently told you to hold a consistent state of consciousness and Light frequency within your body. And that takes daily attention. They cannot bother/impact you at that physical level, however they can impact those who are close to you, which WILL set up a reaction in you, because you have an attachment.

Jana, Q9 cont'd: That's where I'm leading, to our Loved Ones and close relationships.

Yeshua: It will affect that to get a reaction out of you to where your frequencies will fall enough that there would be an opening. However, you're wise enough, you've been brought along in these last several years of your time, that it's very easy to discern that. And when there is a "oops" or a momentary distortion, you recognize it and you right yourself by calling in the Light or using a Prayer, a Mantra, a Light Code, a Sound Code, that type of thing. So you are constantly on – I don't want to say "high alert", that puts too much tension in the body – but you are aware. staying aware

[73:45] Yeshua: Now, let me say this about your physicality, before we complete this little part here. Your mental-emotional body is very much a part of your physicality. It's the vehicle through which you create in form. You see that? Thoughts and emotions create manifestation in the physical.

So that's part of the larger complexity of your physicality, along with your etheric body, your physical double, the chakra system. Actually, your chakra system is really, other than those four lower chakras, is part of your Spiritual Body. And we will be talking about that, about the focus in coming Teachings will be focused more on the Spiritual Body, when we will momentarily be leaving that intense focus on the consciousness of the body, because you have now developed a communication between SoulSpirit and physical, to where the physical, your particular..... Each one of you in this group have developed enough Light within you, enough states of consciousness, that you have trained your physical, through the etheric body, the morphic fields of all of those physical expressions of you, to follow the consciousness of your SoulSpirit.

Jana, Q9 cont'd: I was wondering where we are in that process. When I think about the axiatonal tonal pathways of communication, the inter-cellular communications, and so on – a number of us in the Collective might be experiencing more chronic things. My understanding is that even though the first two strands of DNA have been capped off, could you speak about what has been developed in the physicality prior to that event, that may still be.... Shall we assume that is just playing itself out in the physicality at this point, and there's really nothing to put any attention on? We all know that the state of health and well-being within our physical bodies affects our emotions and our thoughts, the mental-emotional.

Yeshua: Yeah, so you cannot ignore it. You do have to pay attention to it. So, if this structure in the DNA of your physicality stems from a genetic weakness, whether it be in the mental-emotional body, whether it be in the actual genetics of the physicality, if that is already in play, already in play in your life, then you have to pay attention to that and heal it.

Jana, Q9 cont'd: In what manner do we want to be paying attention to that, that's most beneficial for the body consciousness to continue transforming and be following our consistency in 5th Dimensional state of being?

Yeshua: If there is a health issue, then you have to look at healing technologies that have been developed. And use them to bring health back to the body. And bring Light, Healing Light through the Chakra system, especially those first four, because the 2nd Chakra is dependent on the Energetic frequency to function properly from the 1st Chakra, and so on all the way up. So, if there's distortions in that 1st Chakra, those have to be healed, Light brought in, a higher frequency.

[78:29] Yeshua: So whether it's an issue through the consistent thoughts, distorted thoughts about your worthiness or whatever that is that is still playing out. And I don't think any of you are at the point where you feel yourself unworthy. This is not where you are consciously.

But if it is a physical ailment that stems from distortions from within the actual physical genetics, that's another story. It can't be ignored and say, "Oh, well it will go away; I'm pure Light". You have a body that you have to take care of. So, you do need to pay attention.

If it is an emotional distortion, then you have to uncover what the distortion is, what the emotion is, and transform it through the Light that you ARE into Well-being, Joy, Harmony, Peace. And you can work with that through the Chakra system and the Energetics of that. Or the Sound Codes, toning, singing. So there are many things that you have at your disposal to take care of something that is already in process.

Jana, Q9 cont'd: That's helpful. Because my understanding is our 2nd Triad is automatically producing the Golden Light into the fluids of the body and the Nectar viscosity into the tissues of the body. Is that something that continues to need daily attention?

Yeshua: No, not daily attention – only when it requires your attention. Because it's not an on-going thing where you are constantly having to heal or pay attention. It is the energies that are coming in that these unknowable, unknown distortions that happen to be in process and leaving that, when it does come to your attention that you have the tools to remove it.

Jana, Q9 cont'd: So, could we assume that distortions in different physical vehicles that we've taken on through reincarnation are also being played out through this body?

Yeshua: No. The physical genetics of other life expressions – you may have five or six Soul expressions embodied simultaneously, for different purposes. And they have a different genetic make-up. So we are talking about this particular Soul iteration in this particular body.

There's no carry over, unless there happens to be a Soul Overlay or imprint. And then, when you use that Soul iteration again in another form, it has an impact on it.

Jana, Q9 cont'd: In a mid to higher level of 5th Dimension, that's not going to play out either.

Yeshua: No. Because you wouldn't be using that Soul iteration where you were in the Ascension process.

[82:57] Yeshua speaking to the whole group:

This has been a delightful conversation and I want to compliment each and every one of you for the questions and the opportunity to bring forth further information that sometimes we are not able to do in the Teaching Session. That's what these sessions are for, so that we can express to you how it relates to you personally, but how it relates to your evolvment in a physical body, as you travel the Path of Ascension.

So, these sessions are very important. And I want to thank each and every one of you who asked questions. I am delighted at the breadth and depth of the questions that were asked.

So, Beloveds, we're coming to the close of this particular session. If you have enjoyed this session and you have benefitted from this session and would like more sessions like it, please make your wishes known, so that we can provide that for you.

Now, many of you are at a stage of consciousness where you can ask a question or ask for clarification. And through your gifts of clairvoyance, clairsentience, clairsaudience receive a very direct answer to your question. But understand, when we have open community calls like this, that maybe your question would have benefit to four or five others within the community. So, that's what communities do for each other.

And we are delighted. You are such a beautiful Collective Community.
And I am honored to be a part of it.

So, with that, Beloveds, let us close our session by breathing in Light.....
breathing in Undifferentiated Love.....
recognizing the great Beauty of your Spirit.....
recognizing yourSelf as Light Body.....
and feeling the effects of that Imprint within your central column of your body:
the Yod, the Heh, the Vav, the Heh.....
and that beautiful Energetic Light Garment that you wear proudly... and powerfully.....

Just sit with me for one moment and FEEL your graciousness.....
Know your Beauty.....
And know your Unity... with the All That Is.....

[Short Pause]

Blessings, Beloveds, Blessings!
