

Greetings, It is I, Lord Melchizedek.

I come to the forefront of this Sacred Triadic Configuration of the Lords of Light: the Collective Consciousness and the specific transmission of certain Energetics that uplift the body, but most importantly, uplift the Soul and the Spirit.

As Melchizedek, I AM the keeper of that Sacred Light of the All That Is. And I am also the transmitter of that Light and the Knowledge of that Light. Tonight I want to speak with you about Unity Consciousness and how that is so misunderstood.

We have worked with you for many years to help you upgrade your physical body, the body consciousness, but actually the physical body at a chemical and a cellular level, so that consciousness could exist. It looks the same and it feels the same. But I assure you, it is NOT the same.

So, when your physical body -- each one of you was able to hold a certain level of consciousness about who you were and the Light that you are. It was time now to educate you to distribute into that body certain Energetic frequencies that help you understand at a very entry level, but still an important level of Unity, because this is the building block, along with the Element of Love, which we have spent many sessions on with you -- not only transmitting that Energy to you but talking about the Power of that Element and how important it is and how it is part of every creative manifestation, whether it be from the All That Is or Collective Consciousnesses that reside at that Godhead level. That Element of Love, to fully create in your Image and Similitude, must be present.

So, all of these Teachings had to come to the forefront. We had to make you aware of them. We had to transmit certain Energetic frequencies and patterns to re-align your consciousness and your body consciousness. So, when all of that was completed, we now step into the other part of what holds these more refined Dimensions together -- the paradigms of Love and Unity.

So, you have a brief understanding of the Element of Love and how important an open Heart is. We've worked with the Sacred Heart Consciousness on many occasions. So now, we work with the Spirit... and the Unity, the concept of Unity .

As Gabriel mentioned to you, as he led you in being aware of the magnificence of who you are not only as a Christed Being but as Light, as a Spirit of Light, as part of the All That Is, as One with All That Is -- that Light is an integral part of your Spirit. It can never be separate from the All That Is. It is completely in a united function of that Creative Energy of Source Energy.

[5:30]

The Spirit of you is the Undifferentiated Light.

The Spirit of you is part of that 1<sup>st</sup> Ray of Creation.

And when the Soul was created, that happened in the 2<sup>nd</sup> Ray of Creation, where that Energy was stepped down and differentiated into the Image of a Soul, so that creativeness and experiences could be had in matter. And you facilitated creating in that matter, different iterations of matter, different densities, different Dimensions. You are that powerful of an Image of Light, as a Spirit.

As you have awakened your consciousness, the consciousness of the body, many things have transpired. And Soul and the Spirit began to merge. So the Soul Wisdom of many lifetimes, many life experiences, whether they be in a human body on Earth or they be in other sectors of that vast Realm of Creation – you have had a lot of experience in matter in different forms. So that was all imprinted on the various Soul iterations that you used, lifetime after lifetime after lifetime. Some of them in a sequential order, some of them not. So, when the Soul begins to merge with Spirit, there is a complete dialogue between that Spirit and the Soul that directs your life experience in a body, that unique expression of individualism that so many of you prize in that creative effort that you put forth.

But in the end, there will come a time when you have played in matter and you have experienced everything that you desired to experience as that individual. And you start to awaken further consciousness of that particular matter, at that particular time sequence. And you get direct communication with your Spirit, with the All That Is, through that Soul experience. And you begin to let go of that individualism, that prized part of the ego.

You've worked very hard to transform the ego. And now it's not that important. What becomes more important is who you ARE in that united Spirit with the All That Is. That becomes a whole different consideration in your Ascension process. And most of you have gotten to that point. You have experienced having possessions; you have experienced different genders, different roles that you play.

Some of you have missed the point: from that Spirit level, YOU are the creator. You are the producer. You are the director. And you are the actor, the role player in every lifetime. You are ALL of that, united in the Consciousness of your Spirit. Sometimes in the roles that you play in a lifetime, you forget that you are the director and the producer of that play that you are acting in, the role that you are playing. Some of you have preference in role as to gender type. Some of you have preferences in a role as a mother, a father, a teacher, an artist. These are roles of individuality.

[11:15] So now, as we awaken in you that Spirit, you begin to see that for what it is: “Yeah – I’ve been a mother, and I’ve been a father; I’ve been a teacher; I’ve been many things. But at the end of the day, I realize who I AM.”

And gender becomes less important. It was an experience. It was a role. And that’s when you come into the Unity awareness of your Spirit.

Now, in the last session, we talked to you about that Divine Trinity of the Father, the Holy Spirit Shekinah, and the Son and Daughter. Those all had gender connotations. And that was a must to lead you to this session, to this point, that at some point you have created an Image in the Source of All That Is in the Image of the human form, the human body. And the human body has a gender in that denser dimension.

So, it started out with the Father. And now you have an understanding of the Holy Spirit; you have an understanding that the Holy Spirit is an iteration of the Father. But they are unified in the expansiveness, in the magnitude of that Creative Energy.

Now, the Holy Spirit Shekinah brings into your body, into matter, those Unity aspects of consciousness. The Holy Spirit holds that Element of Love, that creative part of the Element of Love. The Father iteration, or the Divine Masculine, holds the directness directing that creativity and manifestation of various types. Some of those manifestations do not have form. Many of them do not have form. Only in matter is there form.

So, I want to bring to you that Knowledge that is occurring within you, within your Light Body, within the differentiated part of your Spirit: your Soul, and how that is merging into a unified expression of the Divine, which you ARE. And we have said that to you many times. Your group is called Seating of the Divine Image.

But the Similitude is the unifying principle from which all are united.

The Father, the Holy Spirit, AND the Son/Daughter of Light are united in one iteration -- through the 2<sup>nd</sup> Ray of Creation, and brought into the 1<sup>st</sup> Ray of Creation.

To get there, you have used many Rays to remove all of the distortions of the illusions that you find in the state of matter that you played in, lifetime after lifetime.

So through the Light Body work, the DNA is changed. Through the Light Body work, magnificent works have been accomplished by YOU to raise your consciousness to this level. This is the time where your Light Body is being illuminated and you begin to take it through the Dimensions into higher frequency ranges, which bring you to a state of consciousness of your Spirit and your Soul unified within the All That Is.

[16:54] Now, this has always been considered a mystery. But through the Energetics you have been receiving, it is not a mystery. If you try to equate it with the matter of your body and the separation within that body, yes, it is a mystery. But when you sit in your Light Body, there is no mystery about you and your Unity: the glowing, beautiful Brilliance of your Spirit. You know that.

And yes, from time to time, you are unable to hold that consciousness. As you hold it at this very moment sitting with me in your Crucible, you fully comprehend that state of Being and what Unity really is.

Your body as a human is also part of the collective consciousness of all of humanity. So, from time to time, you bump up against distortions within that Unity concept, within the Element of Love. And your level of consciousness gets disrupted. How long that gets disrupted is up to you. For you are the creator.

So we have given you many Teachings, many tools to help you make that momentary disruption disappear. And you have been very adept at using those tools. We are so amazed at how far you have come in such a short period of time.

So, it may seem like we are really pushing you now towards a whole new state of consciousness..... And that we are, because we see that you are capable of being all that you ARE, that you have forgotten.

So, with that, we would like to turn this over to Yeshua.  
And we receive him into our Collective of the Lords of Light, for he is a Lord of Light.

And now, we come to you, through Yeshua, in a Quadratic Configuration.

So now, please welcome Yeshua.
