

**A: John's Intro**

Welcome back to Seating of the Divine, Level 5, Session 7: July 14, 2020.

We know it has been a difficult month and we hope you have kept your level head about you. With the smoke screens around you, it is very difficult to stay removed from direct contact with the day to day mess that we observe in the world around us. Please use your many tools to stay above all the mess and not let it affect your relationships and interaction with all those around you.

It is hard, but we know you can do it!!! Your choice is to stay in control of the insane asylum or let the inmates run it. I know what we would prefer!!!

Now, you may or may not know, but we have just announced some of the details of our October Conference. Due to the covid 19, our Conference will be via teleconference on the same days as we had set aside for our in-person get-together. Registration is now open. You were sent a link to register, so take the opportunity to register when you can. We believe it will be a very expansive three days.

We also need your help in eliminating a sound issue. It appears that if you connect to the call after we have muted everyone or you get knocked off during the call and reconnect, you create a buzzing sound. So, if either of these things happen to you, please mute yourself via \*6. Thank you!!!

Now, we will start off with a centering meditation from Archangel Gabriel, followed by a review of our last session. Then we will have a Teaching from the Lords of Light.

**B: John's Review of the last session:**

Melchizedek came to the forefront of the Triad as the Keeper of that Sacred Light of the All That Is as well as the transmitter of that Light and the Knowledge that is contained within the Light. He spoke to us about Unity Consciousness and how it is so misunderstood. He told us that the Teachers of Light have spent many sessions teaching us about the Element of Love. They also transmitted the Energetics of the Element of Love.

Lord Melchizedek also spoke to us about the creative power of the Element of Love and how it is part of every creative manifestation. He spoke of the importance of the Sacred Heart that helps us to maintain an open Heart Center. He said that now it is time for us to create Unity Consciousness with our Spirit. He said that our Spirit is One with the Undifferentiated Light of Source. As Spirit, we are part of that 1<sup>st</sup> Ray of Creation.

Our Soul was created in the 2<sup>nd</sup> Ray of Creation, where that Energy was stepped down and differentiated into the Image of a Soul, so that creativeness and experiences could be had in matter. Lord Melchizedek said that we created different iterations of matter, different densities and dimensions. He said we are that powerful.

As we awakened our Consciousness and the consciousness of the body, many things transpired. Our Soul and Spirit began to merge. Our Soul Wisdom of many lifetimes, through many life experiences, has begun to be available to us.

When our Soul begins to merge with our Spirit, there is a complete dialogue between the Spirit and the Soul that directs our life experience. Our expression in a body is a unique expression of individualism that so many of us prize.

He then told us that some of us missed a major point: From the SoulSpirit level, we are the creator, we are the producer, the director, and the actor in every lifetime. We are all of that, united in the Consciousness of our Spirit. Sometimes in the roles that we play in a lifetime, we forget that we are the writer, director, and producer of the play that we are acting in and the role that we are playing. We have preferences in the roles we play such as gender type. Some of us have preferences in a role as a mother, a father, a teacher, or an artist. These are roles of individuality.

He told us that our Similitude is the unifying principle from which we are united. The Father, The Holy Spirit Shekinah, and the Son/Daughter of Light are united in one iteration, through the 2<sup>nd</sup> Ray of Creation, where the Energetics are stepped up and brought into the 1<sup>st</sup> Ray of Creation.

To get to our remembrance of ourselves, we have used many Rays of Creation to remove all of the distortions of the illusions that we find in the state of matter that we played in, lifetime after lifetime.

Lord Melchizedek told us that through the Light Body work, the DNA was changed so we could raise our Consciousness to this level. He said that now is the time where our Light Body is being illuminated.

The higher frequency ranges of our Light Body bring us to a state of Consciousness of our SoulSpirit and our Unity with the All That Is.

He told us that it may seem like they are really pushing us now towards a whole new state of Consciousness. He said that indeed they were, because they see that we are capable.

Next Yeshua stepped to the forefront. They received him into their Collective of the Lords of Light, for he is a Lord of Light. So then we welcomed Yeshua! He joined us in Unity within the massive creativeness of the All That Is.....

Yeshua said that now we are taking levels of Ascension and that he, too, took many levels of Ascension. He said that he no longer is in need of a body. He took many Initiations of Light Body on several levels. He is no longer in need of a Light Body, because he is pure Christed Light. He creates through the Image and Similitude of his Spirit.

He told us that many of us were with him in his life as Yeshua. When he took on his Light Body, he ascended. And we remember his personality and the roles he played, because we played them with him. Yeshua said that he is so devoted to us and comes to us in this particular iteration of his Spirit as he was as Yeshua, so that we remember ourself in Unity with Spirit.

Yeshua said that the Earth is in a fallen state. We now must help her as we are rising up out of the ashes of dense form into pure Spirit. Earth must rise up and go beyond all Dimensional frequencies into a Planet of pure Christ Consciousness – that has no form, but is a magnificent, powerful transmission of pure Christed Light.

Yeshua said that we came into this embodiment to retrieve all that we are as Light, as Spirit, unified with the All That Is. He also told us that we came with an intention to help reclaim a Christed Planet and take it out of the density of matter and reclaim it as pure Light. This is why we are together.

Yeshua asked us to take a moment and be fully aware of what was transmitted to us at this moment through Lord Melchizedek, the Order of Melchizedek, Master Beings of Light, Master Teachers of Knowledge. He reminded us that we are a member of this Order. He said that Lord Melchizedek is here with us in that unified expression of the All That Is. He is here as the Image and Similitude of the Anointed Ones, the Christed Ones – as are we: the Christed Ones united together in that magnificent Light.

Yeshua asked us to breathe in the Light and take it into every cell of our body. Our body remembers this at a cellular level. He said that because we still occupy a physical body, we have the opportunity to transmit from that physicality into physicality, altering matter substantially for Gaia and for the Elements: Fire, Water, Air, Earth.

The fact that we can hold it in our body is such an important state of being! He said that he can transmit that Christed Energy but not like we can, because we have a Light Body. This is our final quest in this life.

Yeshua asked us to conclude that session and sit in the Quiet and be in the Unity of the All That Is. Be in the memory of our Spirit.
