

Well, a lot has happened in the last five years, as Gabriel has said.

I sent you the transcripts of the Seating of the Divine Feminine and Masculine Image on Earth that was one of the first Teachings that we did in 2015. There was so much in that that created the foundation of where we have traveled over the last five years, where we are at the present moment. And I thought it was a very valuable series of Teachings for everyone to review.

As I reviewed it, I had forgotten about that Blue Star Tetrahedron and the luminous White Star Tetrahedron. I hadn't used that in a while. And it brought into my memory the expansiveness of those Triadic Configurations.

It gave a lot of information about the roles that we play in these gendered bodies and how sometimes, because of the wounding that took place in our mental-emotional bodies, either through experiences or teachings or genetic lineage of the body – it was a whole gamut of reasons why that wounding had remained in our mental-emotional body, splitting it.

So, with this unification, we learned about those roles. We learned about our aspects in our body, as we play in that gendered individuality. And I thought this was a really good thing for us to review, because, as we step into this Unity Consciousness, they are asking us to step into our androgyne state of being.

Now this doesn't mean that we don't honor our bodies, our individualism as we create in these bodies. And we play the roles of gender in these bodies, the gender of either a masculine body or a feminine body. That's not it at all. But – at the end of the day, we're asked to step up to another level of consciousness and realize that simultaneously, as we play in that individuality and we create in that individuality, we can also be in the consciousness of the androgyne, which means we fully embody the aspects of both the masculine and feminine expressions of the All That Is.

When we can really get our minds and our brains around that in some semblance, we step into a whole new multi-dimensional level of consciousness. And I want to bring that to your attention.

There was another aspect that happened along the way in 2015. And that was the Summer Solstice, when we met and we were directed by Archangel Gabriel. There were two members of our Crucible, Jana Stewart and Cliff Hudson, that were actually in a space in Glastonbury, England, in the Tor, where those lines cross and merge: the Michael Line and the Mary Line. They cross and they merge. And that was a very significant thing to understand, because in that merging, it brought into the Consciousness of the Earth the Divinity of the Masculine and Feminine aspects of the All That Is.

[4:43] So, these are things I wanted to remind you of, because we have come so far in what we think of as a short time. It's amazing to me, when I look back on that.

Another thing I wanted to draw your attention to is the opening of the Time Locks in each Conference that we had, starting in 2016. How the first Conference we were asked to hold that 5th Dimensional state of being in our body, very stably, to help the Earth and to help all Humanity, because in that state of consciousness, we can transmit that 5th Dimensional Light Template to raise up all those who are asleep. We also began to work with the 6th and 7th Dimensional Light Templates, the one of the Magnetics and the Electrical charges. We started to open to that Element of Love.

Many, many changes transpired in the next couple of years, many things that were brought together as reference points, things that we had learned along the way, many of us through Mastering Alchemy and in these last five years. The addition of that functioning of the 4th Triad and the changes in the electro-magnetic field are very significant stepping stones to where we are today. The expansion and using of Color Codes is significant. The understanding, a better understanding of the Rays of Creation and how to use them more proficiently, professionally and Collectively. And I'm sure that the Lords of Light will be talking about that now, because we really don't have – we were given the basics of those Rays of Creation. And now they're going to start adding to it, just like they have added to everything else they have brought to us in the last several years.

Unity Consciousness rises out of the Divine Feminine and the Divine Masculine in Love and Harmony with the All That Is. And the deeper understanding of that Unity is so significant right now, as we unify our polarity consciousness of the body and of matter.

The descension of the Holy Spirit Shekinah into our Sacred Heart Consciousness was HUGE. And we still don't fully understand that. But it was a significant event that brought to our Sacred Heart more of that Unity Consciousness in our perception of the All That Is, or the one that we have spoken of and learned about as God. It is not masculine. It is not feminine. It is pure Spirit. But we put gender, because that's all we know, that all's we know in our environment. It's all we have been taught. So, we don't know the fullness of that.

We are in the precipice of such a huge revolutionary transformation, we can't even imagine it. We have received the Teachings and the Energetic transmissions for the last five years that have brought us into this Unity Juncture, where so much changes.

[8:55] And so, that's the reason I wanted to make these comments. I'm sure as you start to review those things that I asked you to review that you started to realize, "Oh, I forgot this and oh yes, that was awesome!" And you bring them forth in your memory banks, because they're important now to be expanded further on and joined in Unity, which will bring us along the way as we come into our full transformation.

Master Kuthumi often mentioned to us and to me personally that our Mastership Journey is never ever complete. It is ever evolving, because we are eternal Beings of Light. These are such exciting times of change. That's why we are here, to see firsthand in bodies and contribute to our Mastership for ourself and Humanity and for the Earth.

So, I thank you for your patience. I just was so exhilarated, as I reviewed so much of the last five years in the last couple of weeks that I just had to talk to you about that. And I'm sure, when we have our community call, I hope anyway that many of you will contribute to that call and voice what you have learned in these last five years.

So, with that, let's all take a deep breath...
and get really centered in that magnificent Sacred Heart Center...
and welcome the Triad...
but welcome the Quadratic function that is now available to us.

It's no longer a Triad.
It's a Quadratic configuration that brings forth the Beauty of a multi-dimensional nature.
