

## History of the Christed Matrix

©Copyright Joan and John Walker

Earth was created billions of years ago by great Creator Beings of Light through the interface of Source energy. Earth was created as a physical Christed Planet that continually transmitted magnificent Source Light in a 12<sup>th</sup>-dimensional sequence. The Elohim, who were the Creator Beings, were provided with a specific blueprint called a Christed Matrix. This Matrix was placed in the center of Earth so that Earth could continually resonate with the Christed energetics of the Christed Matrix. Earth through the Elemental Community continually created a physical environment that completely represented Christ Consciousness.

Earth was the most luminous planet in the entire Milky Way Galaxy. Before the creation of Earth, many planets and star systems had begun to fall in consciousness. They were at war with one another. There was much destruction in this sector of the galaxy, and some planets were destroyed entirely or were no longer able to sustain any life.

Originally, Earth did not have the physical form that it has now. It was gaseous in form but had such magnificent light and color. It stood out in its position in the Milky Way Galaxy. All of the planets and many beings who inhabited the various planets noticed its beauty. Earth's reflection was intoxicating, and soon those

who had strayed from their original state of consciousness began to take in Earth's light transmissions. Soon they stopped their warring practices and returned to a state of peacefulness. They accepted the light transmissions of the Element of Love from Earth. They continued to receive Earth's reflections for eons. All was well in the galaxy.

Many beings who were part of the Collective Consciousness of Source observed the magnificent creation of Earth. They desired to experience this type of environment. They petitioned Source to provide them with the capability to experience themselves as individual expressions that could know what it was like to have some semblance of a form.

Source honored their request, and soon Earth began to have inhabitants. A human form was created for these light beings to experience their individuality. They could know themselves as a collective consciousness of *The All That Is* and simultaneously experience their individuality as creators in form. All was well for eons of time. Earth was able to sustain its Christ Consciousness for over billion years. This time sequence was known as the Golden Era.

Soon some humans began to stray from the original Christed Matrix because they wanted to see if they could create density in form. These humans wanted a faster way to create various levels of density than those that were provided by Earth's original blueprint. Many of these human creations were failures. Some humans destroyed these failed creations, but many were put aside and left. Soon these creations began to replicate in ways that were also outside of their original blueprint. These replications caused great havoc in the energetic environment of Earth.

There was also interference from other planetary beings who came to Earth to take part in its beautiful environment. Some of them contributed to the fragmentations that had been created already. Fragmented creations continued for millions of years. Earth's fall in consciousness did not happen overnight. Many great beings of Light came from the Creative Realms of Source to help stop the decline in consciousness that was causing the faulty creations. Many of them had some success. The decline slowed for a time.

Some of the great Light Beings decided that some of these Christed Light Templates should be programmed into the massive crystalline creations that humans had created for many different purposes. They agreed that these huge crystalline structures could hold much of the knowledge and energetic configurations of the Golden Era. In this way, they could be kept safely until human creators could recover their original consciousness.

Eventually, when Earth fell beneath the 8<sup>th</sup>-dimension, the Christed Matrix was removed from Earth and all humans. It was then that the decline began to escalate. Before the final cataclysm, many of these valuable Earth Keeper Crystals were transported to various sectors of Earth in hopes that the information that they contained could be safe.

Some of these valuable Earth Keepers were in transit when the final cataclysm began, and they were physically destroyed. However, those in a nearby galaxy, known as Andromeda had benefited from Earth's Christed transmissions. They had recovered from a great fall in consciousness and had ascended into a 15<sup>th</sup>-dimensional sequence. These great beings interceded and retrieved the Light Templates that were contained in many of these Earth Keeper Crystals. They have held them in the Etheric Realm for us for over a billion years. The time came November 11, 2011, when they could be retrieved and used.

The original Christed Matrix returned to Earth on November 11, 2011. This Matrix was not activated but very present in the center of Earth and in the Sacred Heart consciousness of every human embodied on Earth. The Christed Matrix would gradually become activated as humans could awaken from their forgetfulness and begin to integrate some of its soft pulses. In 2016 certain groups of humans gathered at significant times to retrieve some of the Light Templates that were held in certain time locks. These various time locks were put in place as Earth fell from the consciousness of the 8<sup>th</sup>-dimension.

Increments of the 5<sup>th</sup>-, 6<sup>th</sup>-, and 7<sup>th</sup>-dimensional Light Templates have been retrieved in the last three years. The retrieval of these Light Templates has contributed a great deal to the

escalation of human consciousness. Many humans are able now to begin to hold the foundational stages of the 5<sup>th</sup>-dimensional state of being. Now is a welcome and amazing time to be embodied. Humanity created in the 3<sup>rd</sup>-4<sup>th</sup>-dimensional state of consciousness for millions of years. The shift has begun, and our creative Light Templates are returning to us.
